 A) may see B) had seen C) might seen D) must have seen E) couldn't have seen

***Barbie with diamond choker sells for record price,
 based on BBC Learning English – Words in the News***

In the packed auction room the bidding was brisk for lot 358, a Barbie doll quite unlike any you have ever seen before. This version of the all-American blonde toy was dressed in a black strapless evening dress, with a pink diamond choker matching her pink peep-toe stiletto heels.

It was the diamonds round her neck which have drove Barbie's price up to US\$302,500. Who bought her? An anonymous bidder. The price was at the lower end of the estimates that Christie's, the auction house, had put.

The jewellery designer Stefano Canturi, who created this Barbie and her necklace, says investors are taking refuge in rare gems right now because of uncertain economic times. The prices of diamonds and coloured jewels have gone up 20% over the past year, according to the auction house, Christie's.

The proceeds from the sale of the bejewelled Barbie will go to the Breast Cancer Research charity.
