Roswell UFO's

„Do you believe in aliens?” If somebody asked you that question, what (1)..... you answer? I am quite sure most of you would say: “No”. But if you spend some time and think it through, maybe your answer would be (2)..... One of the greatest science-fiction (3)....., and an astronomer, Carl Sagan, in his book “Contact”, which described the first (4)..... of the human race with extraterrestrial creatures wrote: “The universe is a pretty big place. If it’s just us, seems like an awful waste of space.” In the past, during the Dark Ages and later, many strange events observed in the sky were thought of as divine intervention. Of course, now we know that most of them were completely non-divine (5)....., like comets, supernovas, or ball lightning. (6)....., there are some that cannot be explained in this way. They could be mysterious and unbelievable encounters with powers that are (7)..... our knowledge and understanding. Some people, and even some scientists, believe that they can be explained by connecting them with alien intervention. (8)..... this is true or not, nobody knows, but it makes you wonder.
